NILES, OHIO

HISTORY

First white settler, Ruben Harmon, came to the vicinity in 1797.

First primitive industry was salt production from the Salt Springs, southwest of the present city. James Heaton, coming to this region in 1806, is considered the founder of the city, which was first called "Heaton's Furnace". First city plot in 1834. The name "Nilestown", in honor of the Editor of the Baltimore (Maryland) Register, was changed to "Niles by the U. S. Postal authorities in 1843. William McKinley, Twenty-fifth President of the United States, was born in Niles, January 29, 1843. He served in this high office from March 4, 1897, until his death on September 16, 1901.

The McKinley family came to Niles about 1839. His father, Wm. McKinley, Sr., was a leader in the steel industry, and also served on the Niles Board of Education.

PRODUCTS

Steel, and products fabricated therefrom, have always been basic to Niles' economy.

Steel fabrication and diversified industries, such as glass, bulbs, auto headlights, fire brick, metal lath and hardware now help to provide a high percentage of Niles' industrial payroll.

Tin plate, now made here according to latest and most improved methods, was made in Niles, before its production was begun elsewhere in the United States. Experiments in rolling titanium on a commercial basis are being conducted.

NATION WIDE ATTRACTION . . . . . McKINLEY MEMORIAL

Costing in excess of $1,500,000.00, this building of Greek Doric Architecture, was financed by private contributions, on a site supplied by the City of Niles — in the heart of its business district. Some students of architecture have termed it the "most beautiful building in the world."

Names Appearing In Black Letters

IN THIS DIRECTORY are the names of those people who ACCOMPLISH THINGS and are entitled to favorable consideration, if for no other reason than their public-spirited support of measures which make for progress. They represent that ENERGY AND PUSH so essential to the commercial prosperity of the City, and in dealing with them no mistake will be made. The publishers are honored in thus making them better known to the public.

SOMETHING

To Think About

For the Advertiser and the Consumer

DO YOU REALIZE that an Advertisement in the City Directory is a Testimonial to the Permanency and Stability of the Advertiser?

A City Directory Advertiser is the logical one to patronize. This permanency and stability is your assurance of a square deal in buying merchandise or having work done.

"FLY-BY-NIGHT," "FIRE SALE," "GET-RICH-QUICK," and other temporary concerns, rarely appear, or advertise, in the City Directory.

It is a noteworthy fact that 90% of the City Directory Advertising is renewed from issue to issue.

There are dominant factors connected with City Directory Advertising: first, the low cost and staple publicity it affords, locally and nationally; second, this co-operation and patronage is wholly responsible for the very existence of the City Directory.

The modern City Directory is a wonderful asset, credit and benefit to the community it represents. In turn, that which benefits the community, automatically benefits the Advertiser.

Judicious Advertising is always a good investment, and City Directory Advertising, cost considered, renders larger returns than any other medium. In connection with the complete Classified Business section, it is doubly effective.

While we have offered you "Something to Think About," it is also Something Worth Remembering.
